

Helping Our Children Shine

March PACE MEETING

Writing Enrichment Night

Thurber House is bringing writing enrichment to PACE! Is your child a budding novelist? Or maybe they are scared to even start the writing process. Join us to learn new ways to engage your gifted child with writing. Meg Brown, the Director of Children's Education from Thurber House has great ideas for both getting kids started writing and keeping them engaged, interested, and learning! Get ideas for writing prompts, learn about other ways to engage your children in and out of school, and maybe try some writing yourself.

Thursday, March 21, 2019 from 6:30-8:00 p.m.

Columbus Gifted Academy
100 West 4th Ave, Columbus, OH 43201

Scholarships Available!

Looking for a way to make those summer programs possible? Support for Talented Students provides scholarships for summer enrichment programs for gifted and talented Central Ohio students currently in grades 3-11 whose families could not otherwise afford the costs
www.supportfortalentedstudents.org

Summer Opportunity Links

Columbus City Schools Gifted and Talented Department keeps a list of some summer enrichment opportunities.

PACE is a Volunteer Family Group

We are a community of parents, grandparents, guardians, and families in CCS. We work together to help gifted children shine. We know the frustrations, the joys, and

the intensity of raising a gifted child, and we support all those who are on this difficult and wonderful journey. We are affiliated with the [Ohio Association for Gifted Children](#).

Leadership Opportunity

Ready to take the next step in advocating for gifted students in Columbus City Schools? Become an officer of PACE. Nominations for all offices (President, Vice President, Secretary, and Treasurer) are being accepted for next year.

Upcoming PACE Meetings

4/11/19 - Transitions
Northgate Intermediate
